Symboler / Symbols / Merkmale

Bagerst i kataloget finder du en oversigt over alle de materialer, komponenter og farver du kan vælge mellem. Katalog med skindprøver kan bestilles på sales@ortowear.com

At the end of this catalogue, you will find an overview of all available materials. Sample catalogues can be ordered at sales@ortowear.com

Am Ende dieses Kataloges finden Sie eine Übersicht aller verfügbaren Materialien. Weitere Katalog-exemplare können Sie gerne unter rootbase@leder-brinkmann.de bestellen.

LÆST / LAST / LEISTEN

Viser den anvendte læst til modellen. Vi anbefaler at man tager udgangspunkt i samme standard for at opnå et lignende design. De anvendte læster kan bestilles som træ-læster, plastprøver eller STL-fil.

Shows the last used for the model. We recommend using the same last as a basis to achieve a similar design. Our lasts are available as wooden lasts, test shoes or as STL files.

Zeigt den für das Modell verwendeten Leisten an. Wir empfehlen, bei der Leistenkonstruktion den für dieses Modell eingesetzten Ausgangsleisten zu verwenden, um die Designeigenschaften des Schuhs größtmöglich zu übernehmen. Unsere Leistenformen stehen Ihnen als Holzleisten, als Probeschuh und STL-Datei zur Verfügung.

SKAFTEMATERIALE / UPPER MATERIAL / OBERMATERIAL

Vælg mellem +100 forskellige typer af skind og tekstil. Det er også muligt at sende skind/tekstil.

Choose between +100 types of leather and textiles. It is also possible for you to send leather and textiles.

Wählen Sie aus über 50 Varianten von Leder und Textilien aus.

RAND / WELT / RAHMEN

Vælg mellem +40 forskellige randtyper i skind eller EVA/ gummi.

Choose between +40 types of leather, rubber and EVA welts.

Wählen Sie aus mehr als 40 Varianten von Leder-, Gummi- und EVA-Rahmen aus.

MELLEMSÅL / MIDSOLE / ZWISCHENSOHLE

Mellemsålen kan enten være synlig eller skjules i skaftet/boarding. Vælg mellem EVA eller gummi i et udvalg af farver og hårdheder.

Midsoles can either be visible or hidden inside the upper or boarding. Choose between EVA or rubber in a range of colours and hardness.

Die Zwischensohle kann sichtbar oder unter dem Schaft bzw. der Verschalung verdeckt sein. Wählen Sie zwischen EVA oder Gummi aus einer Auswahl an Farben und Festigkeiten aus.

HÆGTER OG SNØRRERINGE (SNØRREBÅND) / EYELETS AND HOOKS (LACES) / ÖSEN UND HAKEN (SENKEL)

Vælg mellem hægter og snørreringe eller en kombination af begge sammen med snørebånd.

Choose between eyelets and hooks or a combination of the two with laces.

Wählen Sie zwischen Ösen und Haken oder einer Kombination Beider mit Schuhsenkeln.

VELCRO / KLETT

Vælg mellem enkelt Velcro eller Velcro – Retur (Velcro med tilbageføring). Vi matcher bredde på Velcro-remme i forhold til model og læst. Har du specifikke behov kan disse beskrives.

Choose between single or return Velcro straps. We will match the width and number of straps based on the design. You are also welcome to specify what is required.

Wählen Sie zwischen einem geraden oder umgeschlagenen Klett. Wir passen die Breite und Anzahl automatisch an das Design an. Gerne setzen wir auch Ihre individuellen Wünsche um.

LYNLÅS / ZIPPER / REISSVERSCHLUSS

Vælg mellem lynlås placeret på pløsen, medialt, lateralt eller på alle 3 positioner samtidig. Kan kombineres med alle andre lukningstyper.

Som udgangspunkt placeres alle lynlåse lodret. Læs mere i vores specifikationer som er tilgængelige som download.

Zipper can be positioned on the tongue, medial, lateral or in all three positions. Zippers can also be combined with other fastening types.

As a standard, zippers are always placed vertically. Read more in our specifications available for download.

Reißverschlüsse können auf der Zunge, innen oder außen eingebaut werden. Sie können auch zwei oder drei Positionen kombinieren. Auch die Kombination mit anderen Verschlussoptionen ist möglich.

Im Standard setzen wir den Reißverschluss immer vertikal ein. Für mehr Informationen greifen Sie bitte auf unsere ausführliche Anleitung online unter www.leder-brinkmann.de/rootbase zurück.

SKAFTHØJDE / UPPER HEIGHT / SCHAFTHÖHE

Skaftehøjden for skomodeller er altid defineret til læste-størrelse + 24 mm målt fra hælkrans (str. 42 vil dermed blive 42+24 = 64 mm). Læs mere i vores specifikationer som er tilgængelige som download. Skaftehøjde på støvle-modeller er angivet i mm målt fra bunden af produktionslæst/indlægssål.

The upper height on a shoe model is defined as last size + 24 mm measured from last edge. (Example for size 42: 42+24 = 64 mm). Read more in our specifications available for download.

Upper height on boot models are based on measures from the bottom on the production last/insole.

Die Schafthöhe bei Halbschuhen ist im Standard wie folgt definiert: Größe des Leistens + 24 mm, gemessen von der letzten Kante (Beispiel für Größe 42: Größe 42 + 24 mm = 64 mm).

Die Schafthöhe bei Stiefeletten oder Stiefeln wird von der Brandsohle aus gemessen. Für mehr Informationen greifen Sie bitte auf unsere ausführliche Anleitung online unter www.leder-brinkmann.de/rootbase zurück.

FOER / LINING / FUTTER

Vælg mellem +20 forskellige typer af skind og tekstil. Det er også muligt at sende foer til os.

Choose between +20 types of leathers and textiles. It is also possible for you to send linings.

Wählen Sie aus mehr als 20 Futtermaterialien aus Leder und Textil aus.

BOARDING / VERSCHALUNG

Boarding kan enten anvendes som en æstetisk del af sålen (converse type) eller som en forstærkning mod slitage. Boarding kan også kaldes galosering.

Har du læster med meget stor volumen eller som er meget høje i tåboksen er boarding en god løsning til at opnå et bedre udseende af fodtøjet.

Boarding can be used for both as a design element (converse type) or as reinforcement against wear.

If your lasts have a high toe box, boarding can help you hide the volume and improve the design.

Die Verschalung kann als Designelement (Conversedesign) oder als extra Schutz gegen Verschleiß verwendet werden.

Bei Schuhen mit einer hohen Vorderkappe kann eine Verschalung das Volumen kaschieren und sich somit positiv auf das Design auswirken.

YDERSÅL / OUTSOLE / LAUFSoHLE

Vælg mellem +100 ydersåler. Du er altid velkommen til at kontakte Ortowear for vejledning i såle-type i forhold til funktion, vægt og anvendelse..

Choose between +100 outsoles. You are always welcome to contact Ortowear for guidance related to sole types, functionality, weight and use.

Wählen Sie aus mehr als 100 Varianten von Laufsohlen aus. Wir beraten Sie sehr gerne zu Fragen verschiedener Typen, Funktionalitäten, Gewicht und Anwendung.

FREELock / FITGO

Freelock er et fantastisk alternativ til Velcro. Det giver det samme ensartede hold om foden som et snøreband, men kan betjenes med én hånd.

Freelock kan placeres som en snøring (anbefales), på pløsen eller på hælen afhængigt af behovet for betjening/ funktion.

Snørebandet i Freelock består af en 49-tråds stål-wire omsluttet af plastik. Den er derfor både fleksibel og holdbar.

Freelock is a great alternative to Velcro. Freelock provides the same uniform hold as laces but can be operated with one hand.

Freelock can be placed on the side as an eyelet (recommended), on the tongue or on the back depending on the purpose.

The wire in Freelock consists of 49 steel threads enclosed in plastic. This makes it both flexible and durable.

FitGo ist eine großartige Verschlussmöglichkeit für orthopädische Maßschuhe. FitGo bietet einen gleichmäßigen und sicheren Halt, ebenso wie Schnürsenkel, kann aber mit einer Hand geschlossen und geöffnet werden. Es wird empfohlen das FitGo Rad auf der Außenseite der Schuhe anzubringen. Je nach Bedarf kann dieses aber auch auf der Zunge oder der Ferse angebracht werden. Der FitGo Draht besteht aus 49 Stahlfäden in einer Kunststoffhülle. Dadurch wird eine hohe Flexibilität und Haltbarkeit erreicht.
